Falley con't

1885-86 and from there he began practicing at Park River, North Dakota staying at that point until the spring of 1893 at which time he moved to Bible Grove and here we find him now. He has been unusually successful in his practice here and we can say that Clay County has no more competent or better posted physician than he. Although doing a general practice he has made the diseases of the stomach a special study and in time anticipates making this branch a specialty. He has acquired a more than local fame in this special branch and very often patients come to him from long distances for treatment. We have no more thoroughly posted or successful practitioner than Dr **Falley** and he has hosts of friends and admirers wherever he has been.

Dr Sam **Jessup**, Dentist
Offices, Flora-At Louisville Every Saturday

As much care should be given the teeth as to any part of the human structure. Very few people seem to be aware of the detrimental results arising from defective teeth, which often produce neuralgia, diminished eyesight, defective hearing and dyspepsia. Everyone should visit a good reliable dentist at least three times a year. And to no other gentleman can we more willingly recommend our readers than to Dr Sam **Jessup**, whose well equipped dental parlors are located in Flora.

Dr. **Jessup** possesses the ability necessary to accomplish honest and artistic work, which is always the result of faithful and persistent-labor, united with natural skill. The residents of Clay County are congratulated on having so painstaking and wholly reliable a dental surgeon in their midst as Dr **Jessup**, who does first class work in all branches of dentistry at reasonable prices.
